Case hardened guide csgo

Csgo what case has ak case hardened. What does case hardened mean csgo. What is case hardened csgo.

From blue to gold: How are the patterns different? Blue Barrel and Blue Magazine speak for themselves. For each hardened case, we have a special rare pattern sheet that helps you quickly evaluate the skin. All hardened cases can be divided into five categories: complete gold, for example. Bear knife #120a Little Blue, the color takes ~ 20% of the wool, Bayonet-Knife M9 #211 Halt Blue, ~ 50% of the area, Bowie #27 Bayonet with edges #74 Complete Blue, aka Blue Gem, Karambit # 387 All the are calculated on the side of the game, the color on the rear can be just a small bñ nus. Harmed blue case is the most expensive knives. The first is looking for owners, inspecting skins, measuring the percentage of blue (or gold), and then look for a guarantee of transactions when buying money or barrels by skin. They can be divided into three categories: blue, gold and mixed. The botan is fancil of distinguishing, it is highlighted with a dotted underlined. The most expensive skins of this are almost completely blue or golden. It contains the following standards: scar, top and bottom blue, 50/50, blue barrel and blue magazine. As a result, the pacifiers were covered with multicolored points so that we can consider them the first "skins" in the rie. The game has more than ten standards for him. After that, the website will filter the search results. CS.Money recovers all the secrets of legendary skin. Depending on the pattern, the price may differ in dozens of times. In the hardened texture case, all blue spots are purple. Obviously, the colors on the side of the game are much more valuable than those of the transfers. This significantly speeds up the search for the desired skin. The purpose of hardening is as a protection glass for a smartphone - saving vulnerabilities of scratch and other damage. All types of hardened knives were fewer special standards, but two options of coating: coating: game and the verse. The price may be very different, especially if the blue cover the part of the gun. With gold trunks, everything is more fancil. The last type of mixed skins. The upper part of the weapon contains very gold, while the sides and the store are covered with blemishes that resemble a pattern of space. Needless to say that this option is long, boring and taking a long time? Five and seven: Blue, the best five and seven skin types are knife knives. But in the case of the hardened case, this way determines everything. For this gun, there are many "Blue variations". I want to get hard! How to buy? Option two - Use a C.Money Filter Special. In the middle of the nineteenth century, the main weapon of the US exhaustion-the legendary colt of the swinging swinking treated just like that. The color rates in the wool are measured as a percentage. It is of course, in real life, hardened weapons do not look bright as in cs: For some of them, there are specific values of pattern; For others, different several permitted. There is a golden one - a skin with a mother of gold. This is not rare, because it includes about ten patterns, for example, #92. Of the three, the best (and most expensive) is #661. It is not just a name, but a real way to process materials. The quantum process under the influence of warming creates a thin layer of coating on the surface, which will become a type of case for a softer metal under the crust. What case and why is it hardened? 0.36 #739 Hey Tchurik, can you tell me what you think is worth it? The skins with many spots, literally painted in purple, silver, blue and gold, called "rainbow" or "galaxy". Is it expensive or cheap? P1 - #113 P2 - #599 Butterfly knife P1 - #75 P2 - #599 CLASSIC CHRICK P1 - #943 P2 - #527 Fanf P1 - #837 Huntsman Note: Like the Bowie knife, the knife of casters do not have perfect precious gold stones patterns, they are here the first two of the least bad. The upper blue, lower and 50/50 are skin with the corresponding place of blemishes in the body. The hardened skins of cases are the most unusual skins on counterattack: global offensive. What is a skin? There are two ways to put the skin of your dreams in your invention. Clean Gold Gold Gems à Borde of the game: P1 - #834 P2 - #993 Mais Gold Gold Golds: P1 - #852 P2 - #802 Golden Golds on the Double Side: P1 - #895 P2 - #119 Nossus knife our Guide presented on the site! PREÁ ± o ????? The name came from a small golden touch in the form of a track on the receiver, while the sides of the brain and the rear are blue. All other patterns are not their own name and any additional value. One for the cleaner gold yolks, one for the most golden and one for the double -sided jewelry. P1 - #759 P2 - #41 Karambit Note: Although the community agreed that 896 and 231 are the patterns P1 and P2, I decided to choose the 2 best of the "no goo" patterns and make 2 separately. Unfortunately, CS: Go still has no hardened revolvers. The skin is complicated that there are integers of standard standards. Sry is in German, his mother's wear. Although they are not so expensive as the standards above, they are still more expensive than regular stations. We use it to look for skins with a certain color. The game has skins whose appearance does not change depending on the pattern of patterns. IDK about the rest. The skin's price is affected by the amount of one color or another. A good example of this skin is standard 863. I would love to see the gold egg yolks Mac-10 soon, too, the patron of Talon is the hardened pattern 744 counts like any kind of jam. of gold or is only for the market price item in question, Talon, Value: 0.16898347437381744 SEED: 744 NOT all these magic numbers - - Àdice. For hardened case, the percentage of blue is also indicated in this box. Even if you are lazy to move the filter, we have good notion-when you get the mouse over each lot on the site, a pop-up window appears with a brief description of the skin. This is how the hardening of the case occurs. This is all, good luck with the Community! Syncler's Hardened Gold Gold Guide First of all, let you thank you people who devoted your time to help me set up this guide! Thanks Lanombre and Nowoke for traveling 20,000 screenshots with me! Thank you Omar [widespread] for helping me with the Karambits! Thanks too © Mroskins [broskins.com] for providing screen capture of all hardened case patterns and the WS server to check them in the game! AK -47 NOT 1 GOLDERS OF GOLD: P1 - #784 P2 - #219 Tier 2 Golden Dines: P1 - #473 P2 - #538 Five seven p1 - #691 Bayonet P1 - #395 P2 - #848 P3 - #359 Bowie Note from the knife: Bowie knives seem horrible, then, instead of choosing the best, we can just choose the least bad. As in knives, the gold of five sevens does not cost. Some use photo editors for this, and CS. Money automatically calculates the amount of blue in all cases hardened with perfect precise! AK with scar, blue barrel and 50/50 kalashnikov is the richest in special variations of pattern. Infamous 1 Gold Golden Greens: P1 - #896 P2 - #231 No Cleaner 1 Gold Dine: P1 - #939 P2 - #388 M9 Bayonet P1 - #739 P2 - #787 P3 - #471 Navaja Knife P1 - # 36 Nomad knife knife P1 - #39 p2 - #912 p3 - #263 Fanda Paracord P1 - #521 Daggers Shadow No one cares about Daggers Shadow. All of them are popular among players, although each weapon has its own hits. From this phenomenon came the name of the process of processing - the hardened case. They are almost completely golden, with only rare spots of other colors. #1 Ursus Ursus I have this, if someone is interested. Silver variations also cost more than usual. No standards: #661, #321 and #670. It can be configured by clicking on the appropriate botan located under the main filter panel on the site. This is still the biggest business in the skin market. However, there is no guarantee that you will receive the desired skin. The proposal of colors also calculated and, based on this, the prison of the skin is determined. The gold yolks patterns almost stand out at cost, perhaps because the aprains is very similar to five and seven | Copper galleers. Imagine that you dive a knife -pipeline or a gun frame in a bathtub with quantic products at the highest temperature. Blue trunks were standard, for example, #151 or #856, but they are not highly valued. For the rest, the rule works: the more blue, the higher the price. Skeleton Knife P1 - #914 P2 - #943 Stiletto P1 Knife - #268 P2 - #895 Survival knife P1 - #927 P2 - #159 Talon Note: Just like the Karambits, I decided to share the different categories. The location of the texture is determined by a number of 1 to 1000. Number of patterns: #278, #690 and #868. The blue category is the most expensive. The scars are considered the coolest. The most expensive, of course, are pistols with a blue shutter. This is a square texture that is randomly overlapping the weapons model. In Counter-Strike: Global offensive, AK-47, five and seven and 19 different knives were hardened. You can choose to filter rare patterns or even specify the desired number. The higher the percentage, the rarer and the more expensive the skin. You can find a list of all rare patterns for the hardened case in our Wiki. The hardened boxes of the box can be blue, gold or completely bright from silver to purple. Blest magazines are in standards #587 and #502. But even without him, the case It is © very cool cool This can decorate any invention. Most of these AKs resemble their golden colleagues from the San Rie Call of Duty. Karambit | The case hardened with a completely blue wool and in good condition was sold for years for \$ 120,000. The numbers of their standards are #219 and #784. #784.
